To Whom It May Concern

Mr. Hadi El-Farr was an MBA student for a period of two years (2004-2006) in the Business School at the Lebanese American University.

He has also worked for a period of two years as a graduate assistant an average of 20 hours per week and his performance is rated very high. His behaviour in classes and on campus has been respectful.

While performing the duties that our program requires, Mr. El-Farr displayed a responsible attitude towards his academic work. He has impressed me with his seriousness and dedication.

Mr. El-Farr has shown a great promise in identifying problems, collecting information, and above all, showing their proper use in analysis and interpretation. He has shown great willingness to work in-group whenever such an opportunity has been presented to him.

Therefore, I strongly recommend Mr.El-Farr to your respected institution.

Sincerely yours,

Tarik Mikdashi, Ph.D.
Dean , School of Business
Professor of Business Studies
